

IES. MARE NOSTRUM MÁLAGA

MÁLAGA

- The city in Europe with the best weather.
- 3 springs and 1 summer.
- More than 300 days of sunshine a year.

- **The only place in Europe where tropical crops such as avocados and mangoes grow.**

- 
- **One of the oldest cities in Europe**
 - **With more than 3500 years old.**
 - **Different Mediterranean cultures have passed through here: Phoenicians, Greeks, Romans, Visigoths, Arabs...**

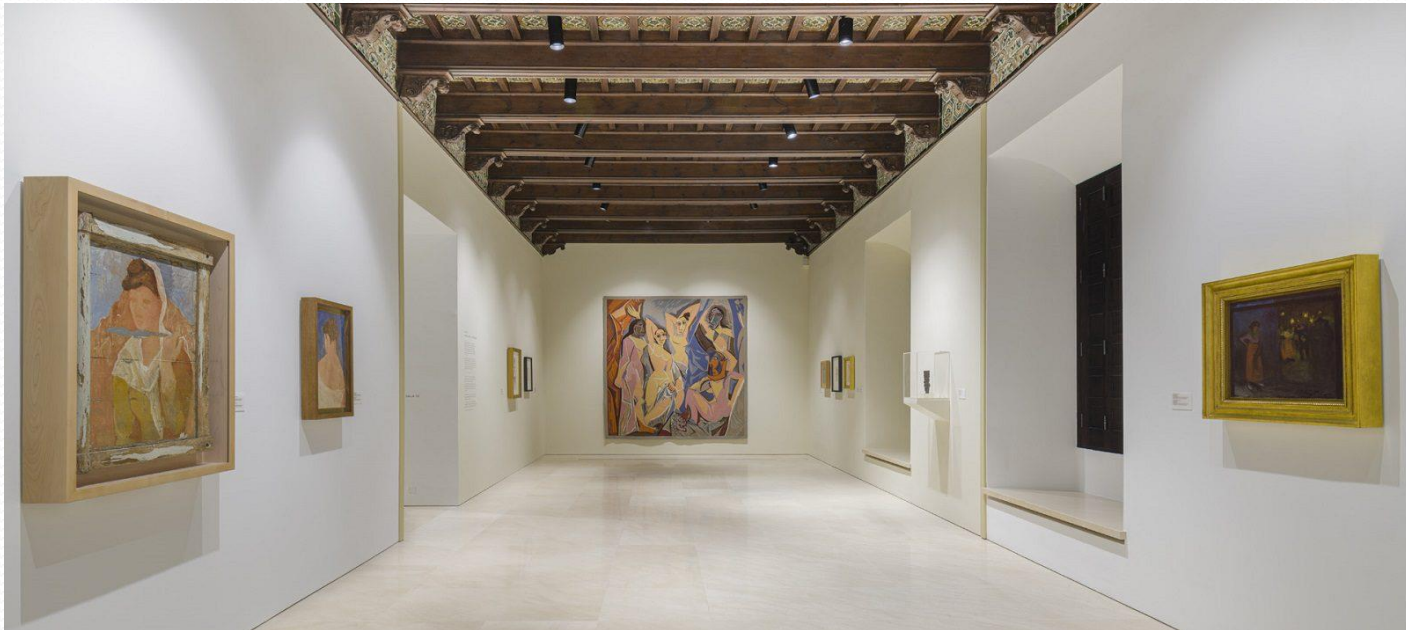

Mix of cultures

- The city where Picasso was born.

With one of the best museums.

The capital of the Costa del Sol. One of the main tourist centers in Spain with 14 million visitors in 2023.

IES. MARE NOSTRUM

- Secondary education center with approximately 1000 students.
- Our students can prepare to enter University.
- Or they can prepare for professional life in the branches of administration and electricity.

- <https://institutomarenosttrum.es/>
- **Title of our project: The EU the beginning of everything: Commitment to equality, democracy, personal and sustainable development**

Main objectives of our project

- **Updating teaching-learning methodologies adapted to European standards.**
- **Establishing cooperation links with other teaching and employment institutions.**
- **Fostering the teachers and students' language skills**
- **Offering opportunities to those who find it more challenging to gain access to European mobilities because of their economic, social or cultural status.**
- **Widening working opportunities for students.**
- **Improving teachers and students' digital skills.**

- **IES Mare Nostrum offers two High Vocational qualifications: Communication and IT systems in the computer science and IT area; Management and Finance in the Business and Management area.**

- **The projects we are interested in aim to carry out job training modules in European companies. In order to achieve so we want to set strategic links with future partners and knowledge alliances with other higher education institutions in Europe.**
